PROFILE

I'm **Vishal Pandey**, a **21-year-old software developer** with a strong foundation in computer application and a passion for coding. **Recently graduated with a Bachelor's degree in computer application**, I'm **eager to apply my knowledge and skills to real-world software development projects**. I'm driven to expand my skill set and stay up-to-date in the ever-evolving field. **Seeking an opportunity to contribute my expertise to impactful projects and enhance my abilities.**

WORK EXPERIENCE

Web Development Intern

Jan 2023-April 2023

One knot one tech.

- I interned as a **Web Developer at One knot one tech**, gaining **hands-on experience with ReactJS**. I successfully learned ReactJS and utilized it to develop customized modules that **fulfilled the company's specific requirements**.
- Leveraging my internship experience, **I am thrilled to pursue a challenging and dynamic role where I can further enhance my web development skills.**

PROJECTS

Rent A Car Service Website ([React.js](#), [JavaScript](#), [Bootstrap](#), [CSS](#))

- A rent a car service is a company that rent our cars to customers for a set period of time. Customers can choose from a variety of different cars, depending on their needs of budget.

Grocery Admin Portal ([React.js](#), [JavaScript](#), [Firebase](#), [Bootstrap](#), [CSS](#))

- The grocery management admin portal is a user-friendly web-based platform designed to streamline and optimize the management of a grocery store. It empowers administrators to efficiently handle inventory, Customer, sales, manage suppliers, and analyze data, ensuring seamless operations and informed decision-making for the business.
